**Continuation Sheet (PTO-303)** 

Application No. 09/440,260

Continuation of 3. NOTE: Independent claims 1, 11, 20, and 28 introduce a new limitation that would require further search and consideration, specifically independent claims 1, 11, 20, and 28 introduce a "registration message" which is not recited in any of the corresponding dependent claims. The applicant argues that proposed independent claims 1, 11, 20, and 28 have features recited in cancelled claims 7, 16, and 34, however the claims introduce the new limitation (of a registration message) as discussed above.

In addition, independent claims 37 introduces a new limitation of "in response to a command being input to said set-top terminal by a user," which would require further search and consideration.
